

Array.java

```
1 package ArrayList;
2 import java.util.*;
3
4 public class Array {
5
6     public static void main(String args[])
7     {
8         ArrayList<String> list = new ArrayList<String>();
9
10        list.add("USA");
11        list.add("Canada");
12        list.add("Nigeria");
13        list.add("China");
14
15        System.out.println("These are the elements of array list: " + list);
16
17        //How to add elements into the array using index
18        list.add(0, "Mexico");
19        list.add(3, "Ghana");
20        System.out.println("These are the current elements: " + list);
21
22        //How to remove elements from array
23        list.remove(1);
24        list.remove(4);
25        System.out.println("This is the remaing elements after removal: " + list);
26    }
27
28 }
29
```
