

Alphabets.java

```
1 package PrintAlphabets;
2
3 class CharacterAZ extends Thread
4 {
5     public void run()
6     {
7         char x;
8         for(x='A'; x<='Z'; x++)
9         {
10             System.out.print(" " + x);
11         }
12     }
13 }
14
15 public class Alphabets {
16
17     public static void main(String args[])
18     {
19         CharacterAZ chaz = new CharacterAZ();
20
21         chaz.start();
22     }
23
24 }
25
```
