```java
1 package FinalizeKeyword;
2
3 class First
4 {
5     int x;
6     public First(int x)
7     {
8         this.x = x;
9     }
10    protected void finalize() throws Throwable
11    {
12        System.out.println("Welcome to Finalize Keyword in Java Programming " + x);
13    }
14 }
15
16 public class Keyword {
17
18     public static void main(String args[])
19     {
20         First f1 = new First(100);
21         First f2 = new First(200);
22
23         f1 = f2;
24         System.gc();
25         System.out.println("Hello Word");
26     }
27
28 }
29
```
