```java
1 package SumOfDigits;
2 import java.util.*;
3
4 public class AddDigits {
5
6     public static void main(String args[])
7     {
8         Scanner sc = new Scanner(System.in);
9         System.out.println("Please insert some numbers: ");
10         int num1 = sc.nextInt();
11
12         int add = 0;
13         int addall = num1;
14          while(addall != 0)
15          {
16              int sum = addall%10;
17              add += sum;
18              addall/=10;
19          }
20         System.out.println("The result of sum of " + num1 + " is " + add);
21     }
22
23 }
24
```
